# Child Seating Solutions

**WARNING**  
FALL HAZARD: Children may suffer severe head injuries including skull fractures when sitting from high chairs. Falls can increase the possibility of child sexual abuse/neglect. Always use restraints and adjust to fit snugly.

**KB102 Child Protection Seat**

Koala Kare's child protection seat allows parents to comfortably secure a child while safely using the restroom themselves or tending to other matters in the restroom. A steel pivot rod secured in an aluminum tube hinge mechanism provides superior support and wear resistance, while nylon safety straps that extend over child's shoulders and between legs safely secure the child.

**KB102-00**

- Child Protection Seat (Cream)**
- 12¼" W x 18¾" H (311 mm x 476 mm)
  - Depth 5⅝" (143 mm) Extension 12¼" (311 mm)
  - 6 lbs

  - Depth 5⅝" (143 mm) Extension 12¼" (311 mm)
  - 6 lbs

### KB105 Designer High Chair

Sleek design and color choices match modern restaurant design and décor. Curved chair top reduces potential liability by preventing chair from being turned upside down and used unsafely to balance an infant carrier. Table-height chair allows a seated child to eat off a standard restaurant table with the whole family.

**KB105-01**

**Designer High Chair (Grey)**  
 - 16¾" W x 29½" H x 21¾"  
 D (425 mm x 749 mm x 553 mm)

**KB424/KB425 Cinema Seat**

Koala Kare's Cinema Seat is specially designed for theatres, arenas and auditoriums. The contoured seat provides a comfortable experience and the large seating surface can accommodate a variety of ages and sizes. Cinema Seats are constructed of seamless plastic with rounded corners. Molded-in resistance ribs provide stability by gripping the seating surface without damaging the seat underneath.

**KB310/KB311 Baby Changing Stations - Stainless Steel**

Featuring a one-piece, deep-drawn, uniform grain stainless steel body that eliminates seams, sharp edges and weld lines, the KB310 horizontal and KB311 vertical stainless steel changing stations provide a modern visual aesthetic that matches other stainless steel restroom accessories. Design upgrades and amenities include Microban® product protection, a redesigned liner dispenser and a convenient external stainless steel bag hook for easier bag access during changing. Every version of the KB310 and KB311 is also available in a Matte Black finish. For very specific design needs, consult your Koala rep about custom colors and finishes.

Countertop Changing Stations

For restrooms that offer the countertop as the surface to change a diaper, this unit clearly defines that an area is designated only for diaper changing. Additionally, it provides a hygienic and safe surface to complete a diaper change.

**KB3000-AHL** Adjustable Height Changing Station

Koala Kare's first ever adjustable height changing station incorporates exceptional safety features, unmatched durability and careful considerations for the cared for and caregiver. This product is designed specifically for public spaces, emphasizing robust construction and enhanced durability. Koala Kare's adjustable height changing station can safely support up to 500 lbs (227 kg) on the changing surface and is equipped with an emergency stop. The unit has a battery back-up in case of power outage to provide safe emergency lowering.
